- III. Results
- IV. Summary
- V. Further plan

I. Aims of the Processevaluation

- Feedback concerning
 - Satisfaction
 - Improvement
- “Space“ for opinions and statements
- Possible solutions for a better teamwork

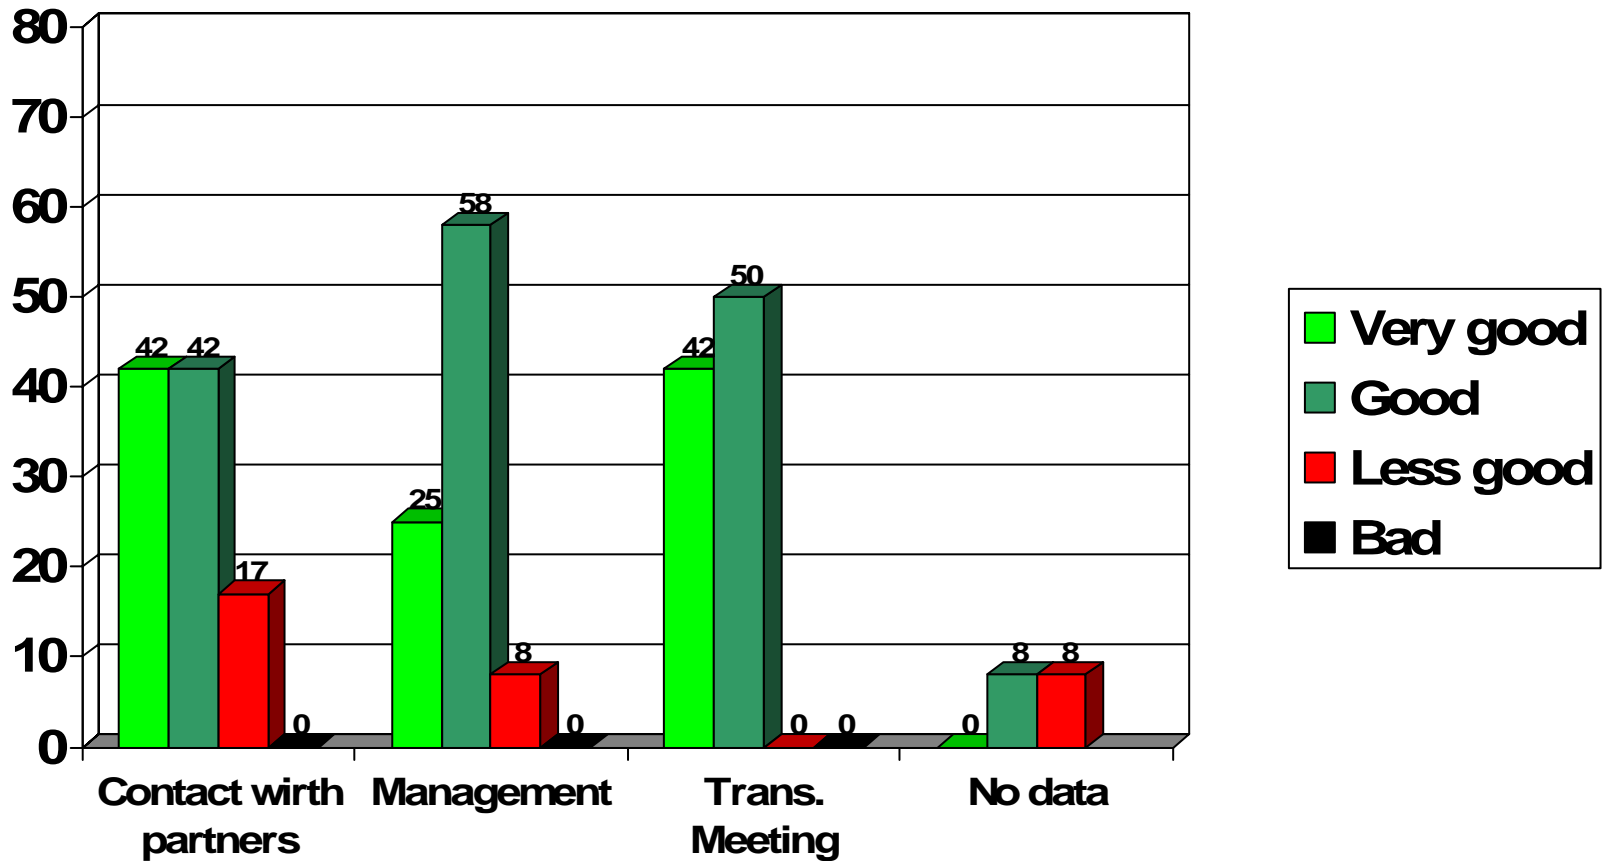

II. Method

- The questionnaire as online-formular on blinc
 - It took 30 minutes to complete it
 - 16 partners should have given a feedback
 - Flow-back: until 5th of May 12 feedbacks
- Analysis of your feedback
 - “Close questions“ and “open questions”
 - Counting of answers
 - Content analysis (development of central categories)

III. The results

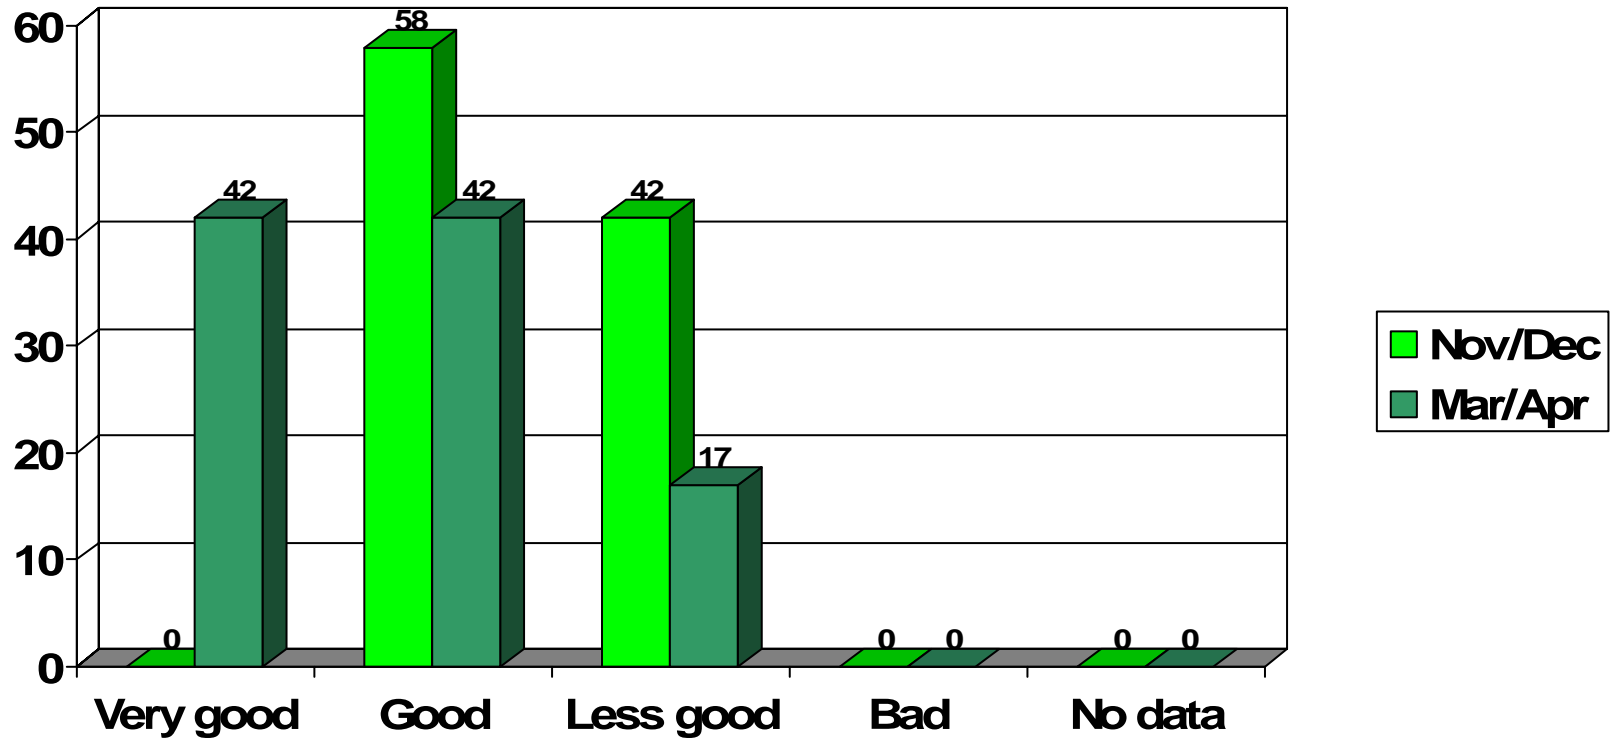

- Presentation of the results:
 - Results in detail for you (handout)
 - Power Point Presentation to visualize the results

1. How do you like the progression of the eL3-network?

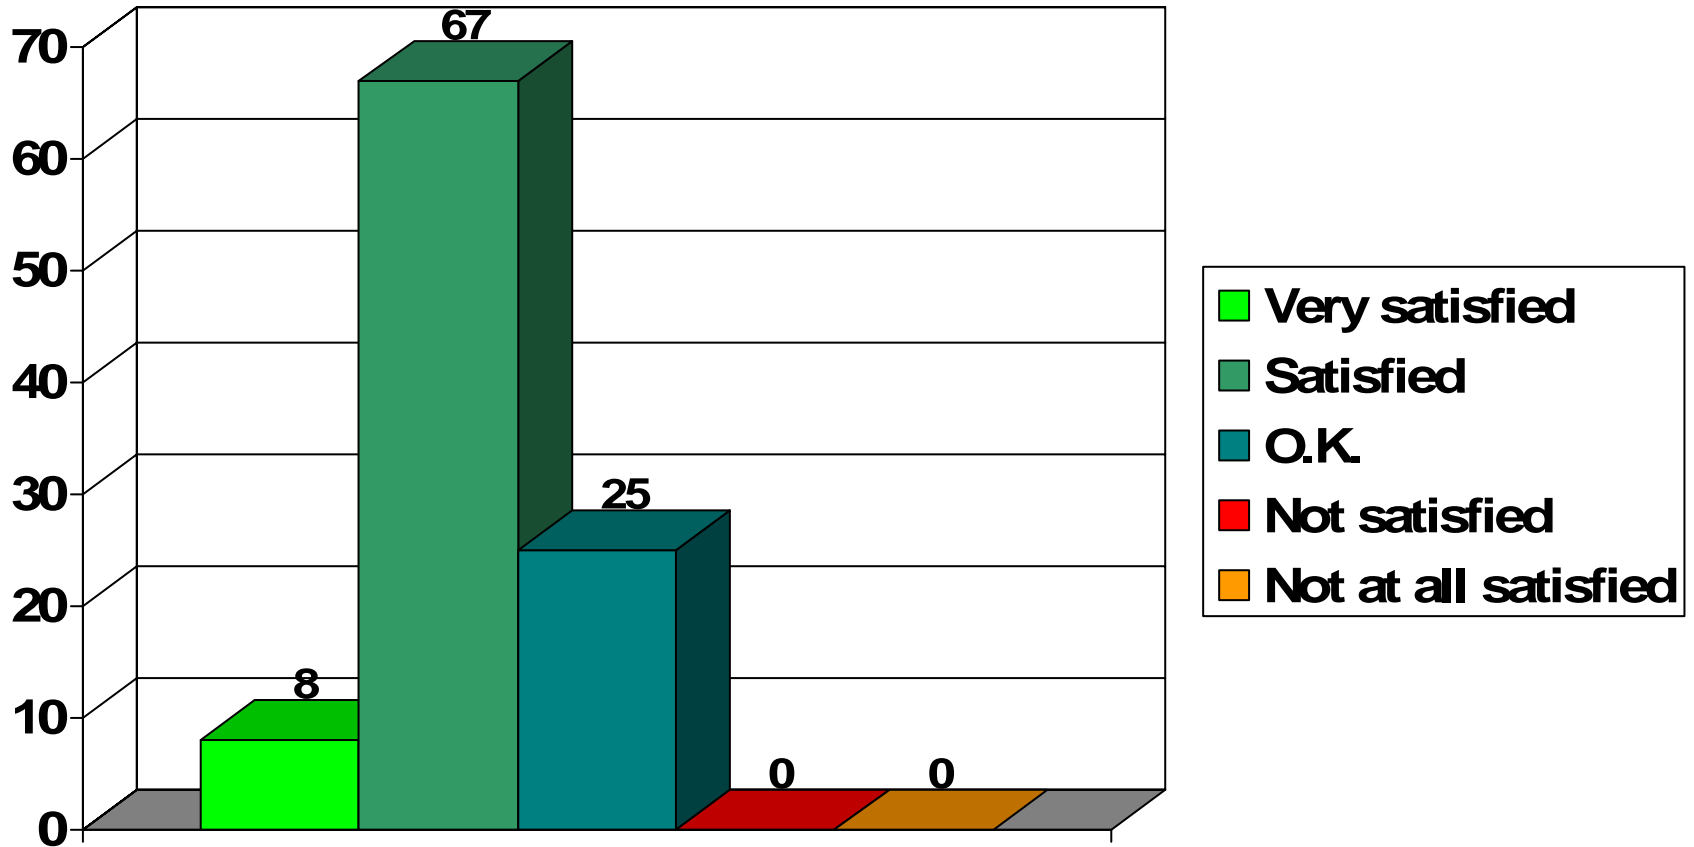

1. How do you like the progression of the eL3-network?

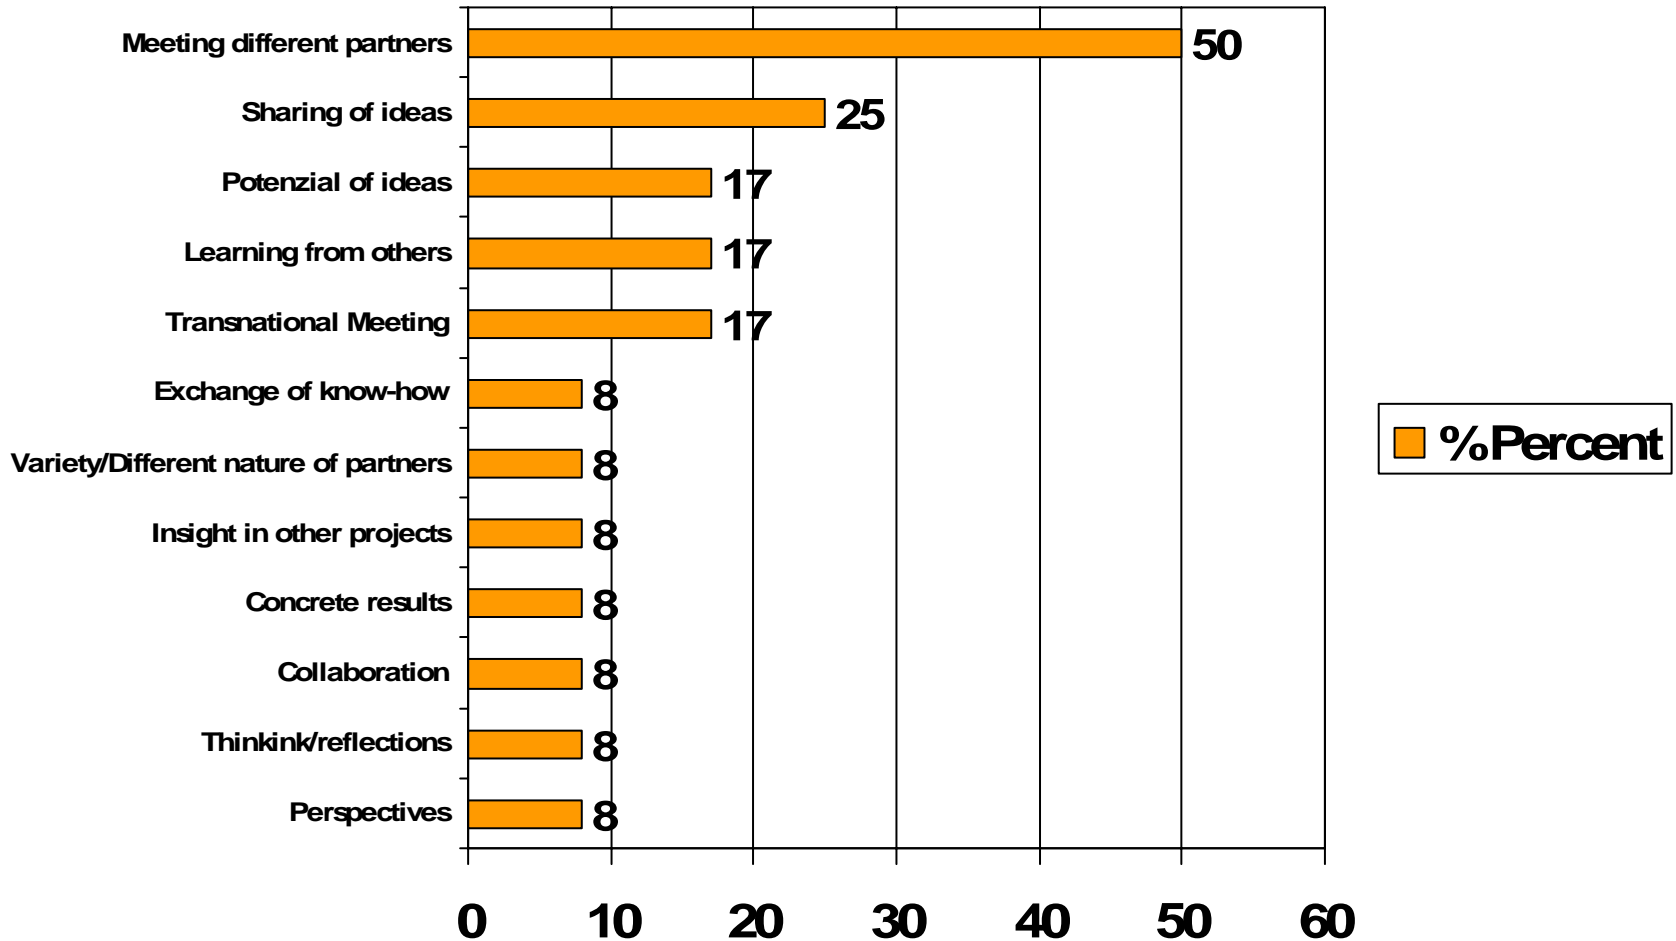

Contact with partners

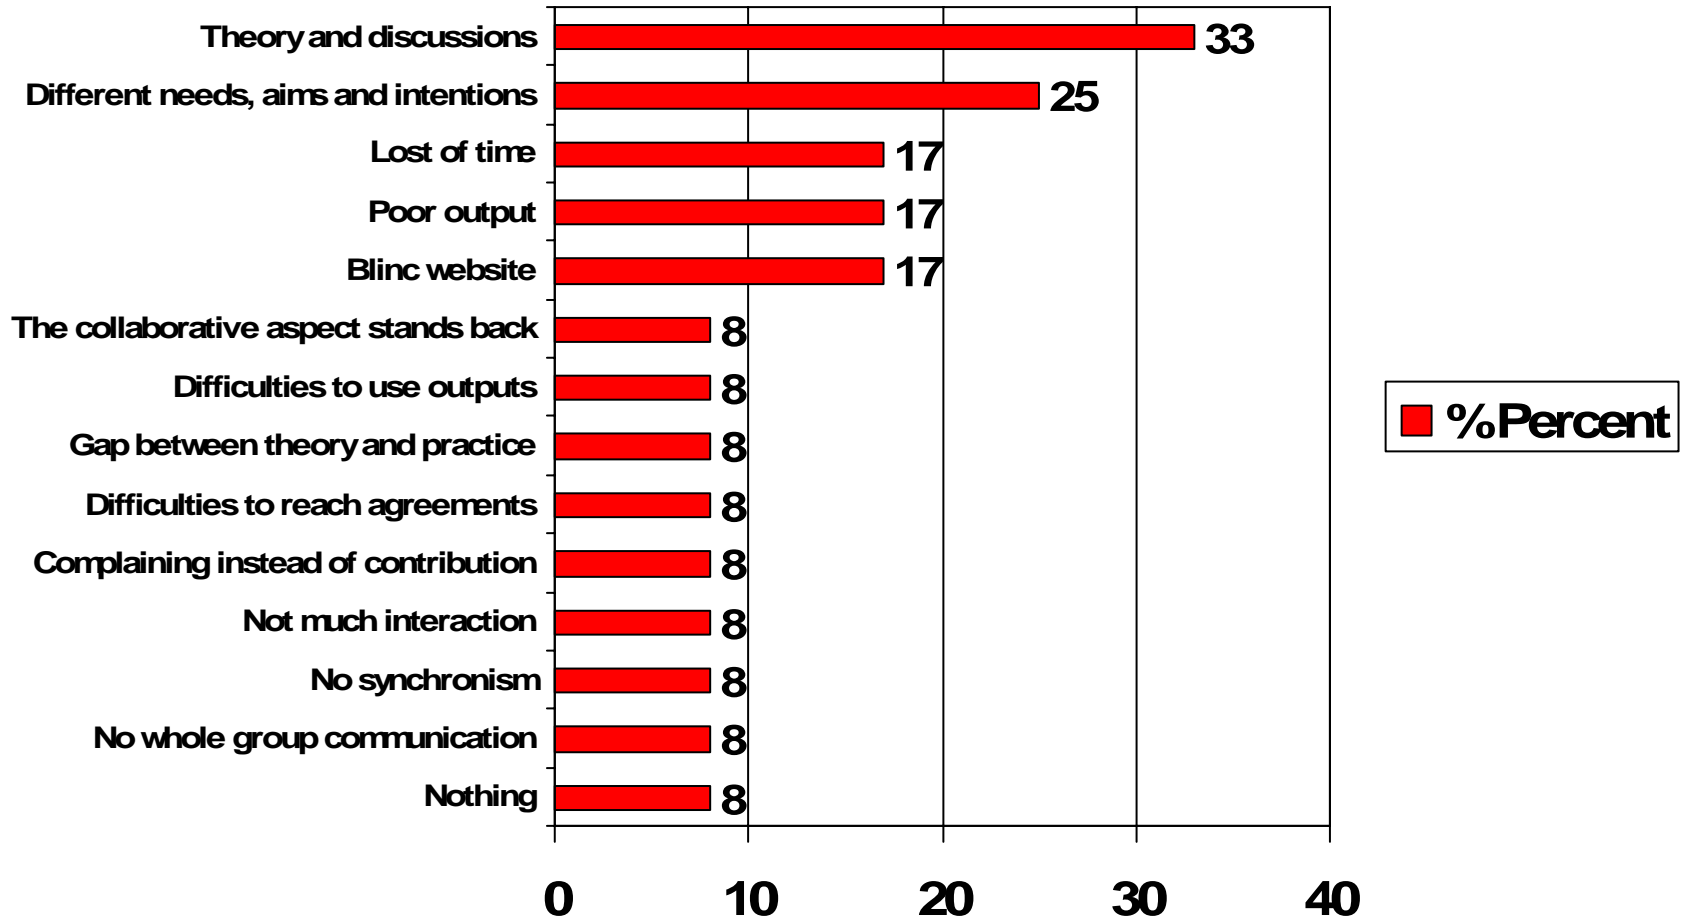

2. Considered all in all are you satisfied with the eL3-network?

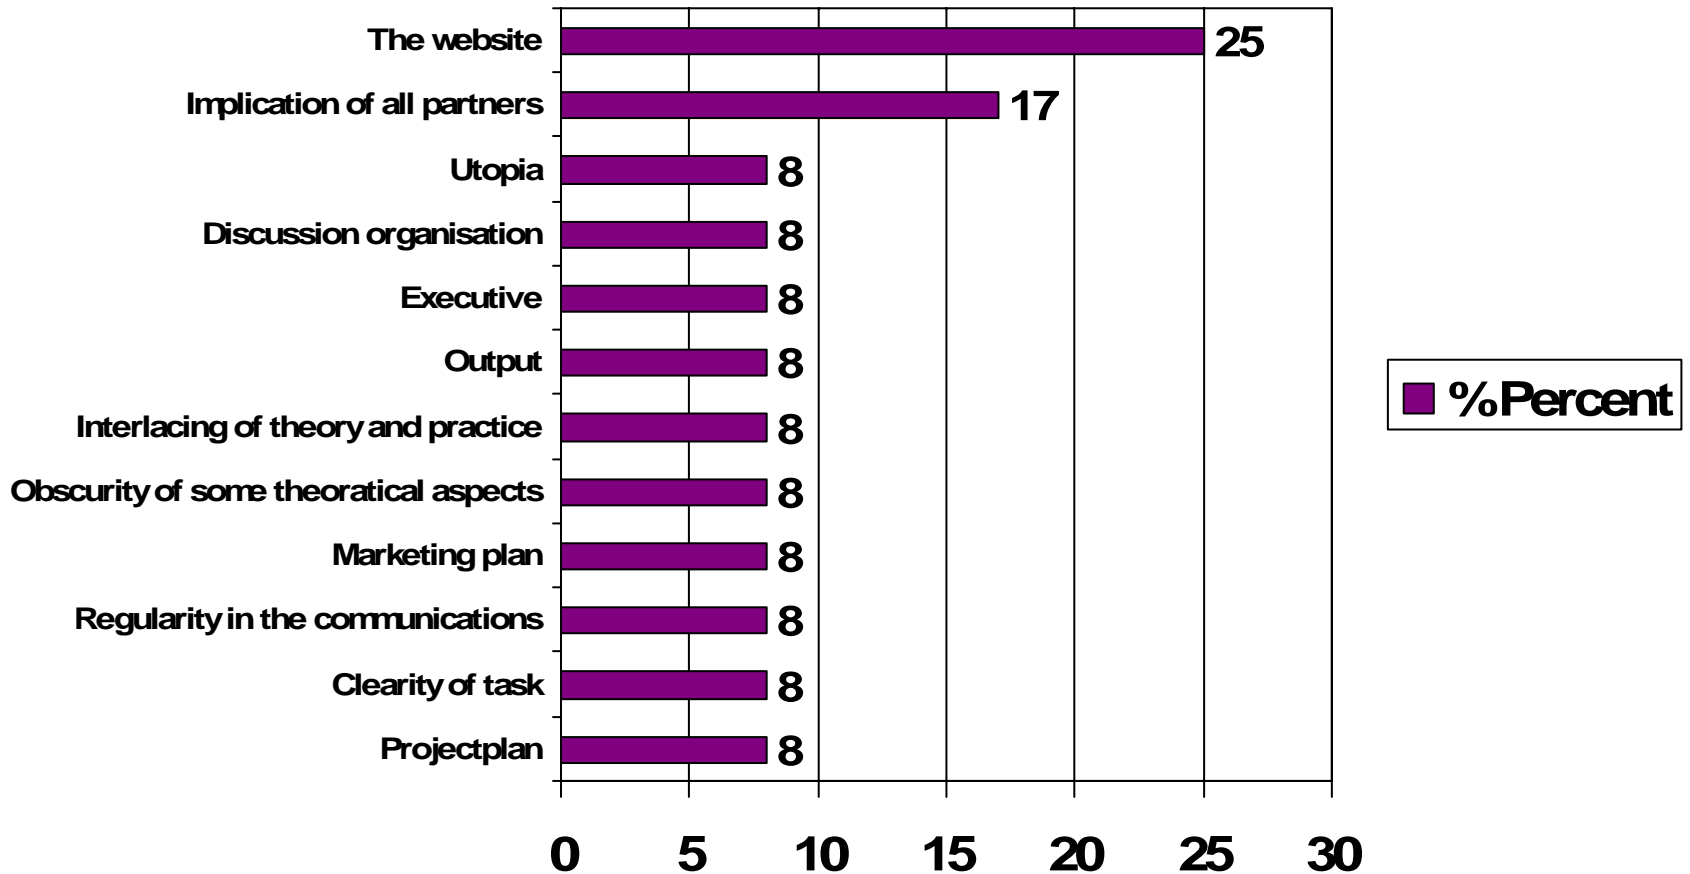

3. What have you liked so far?

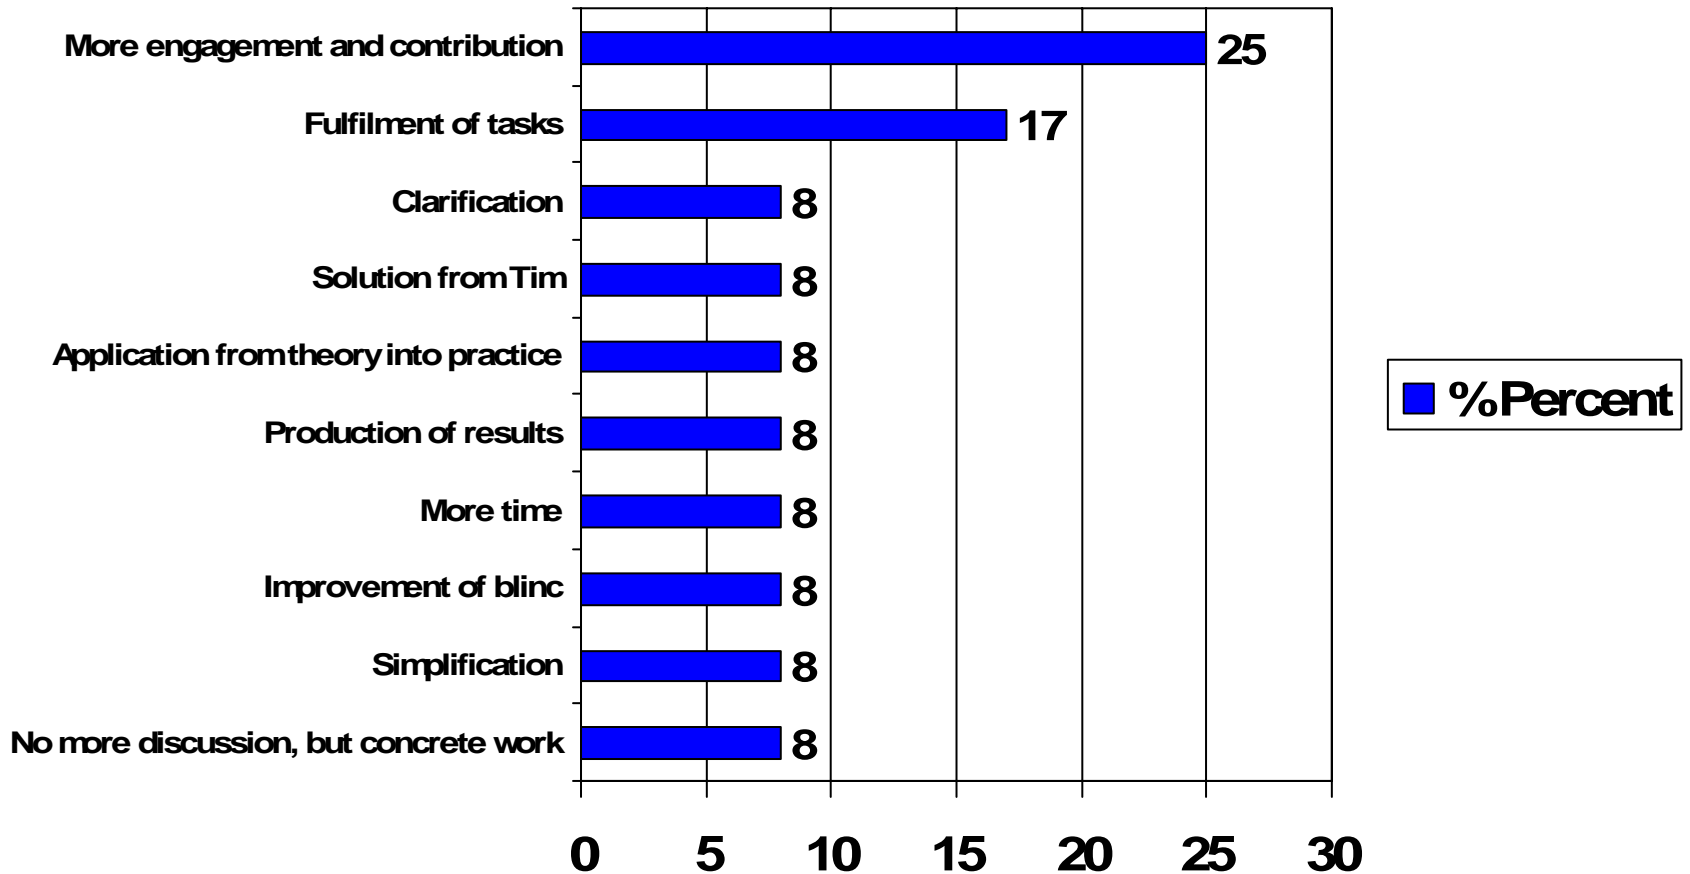

4. What have you disliked so far?

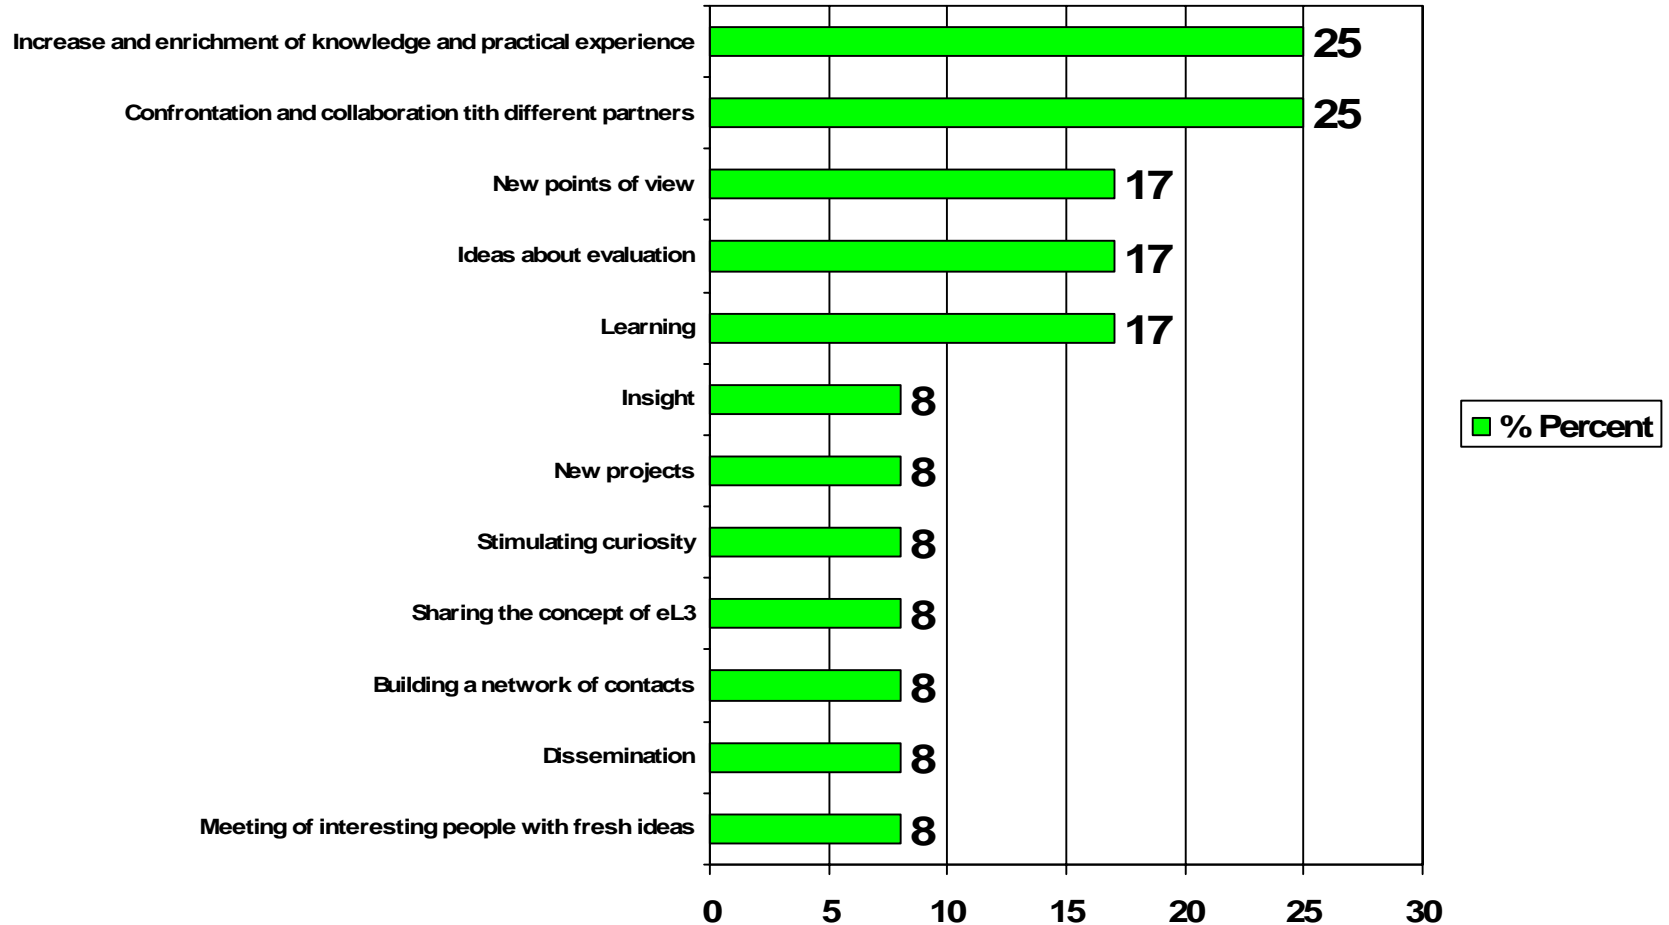

5. In your opinion what needs improvement?

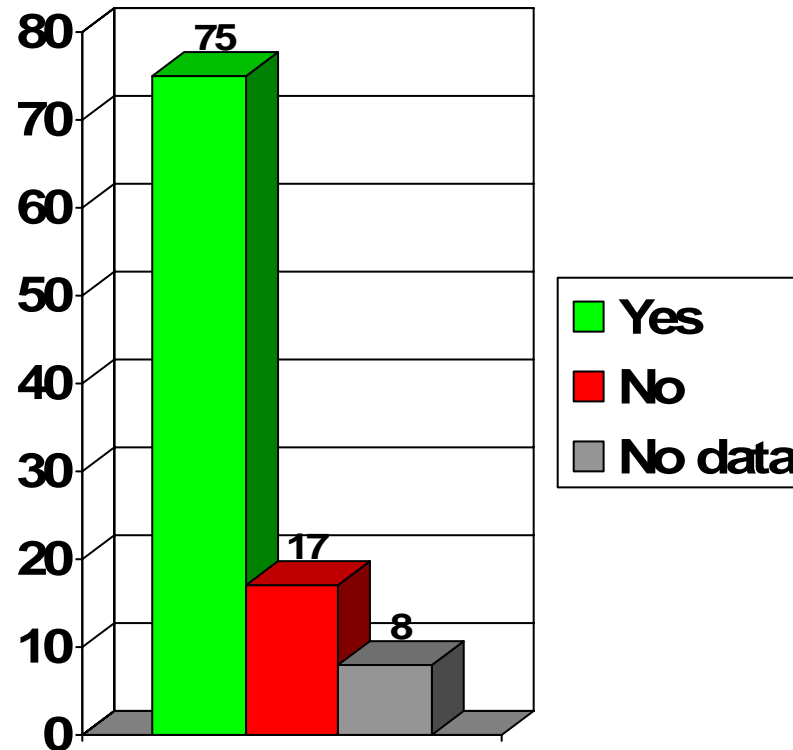

6. What are possible solutions for this improvement?

7. What positive effects has the eL3-network for you until now?

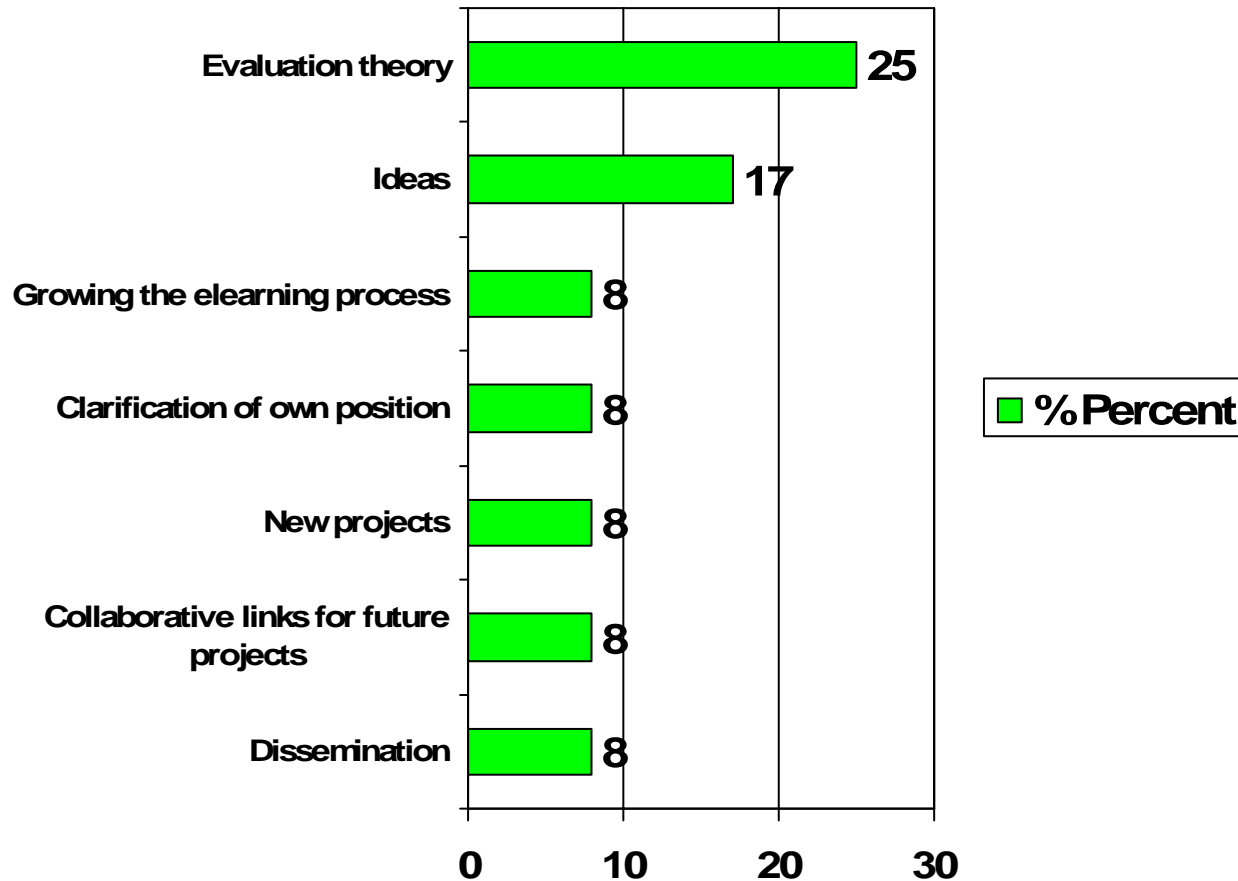

8. Do you have any perspective or a fresh impetus which you can use or realize for your own project?

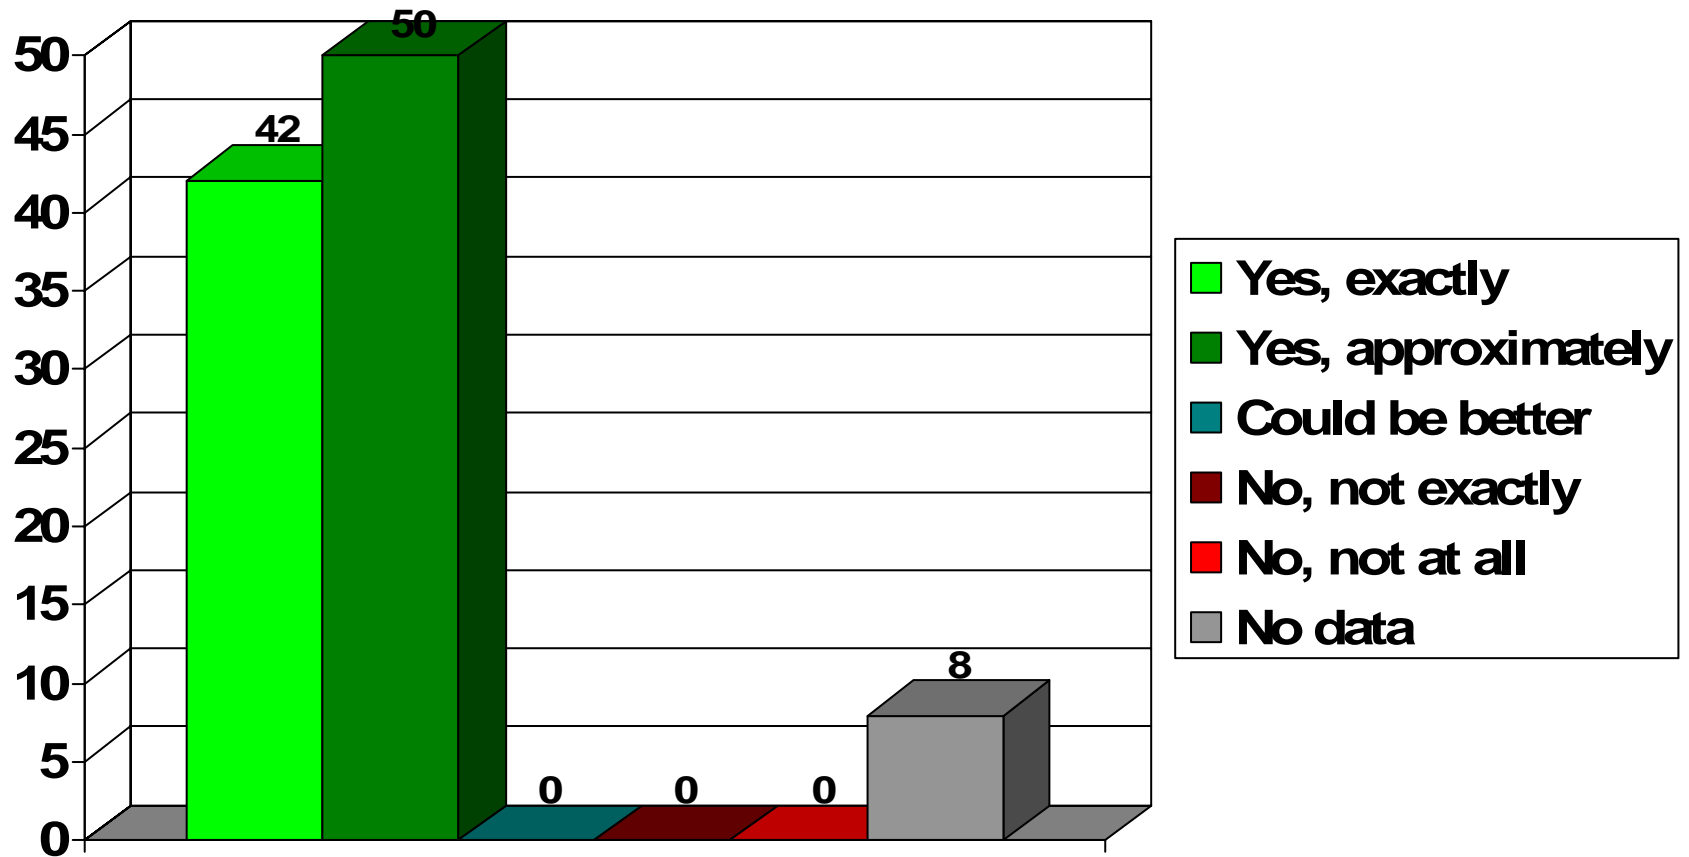

(8. Do you have any perspective or a fresh impetus which you can use or realize for your own project?)

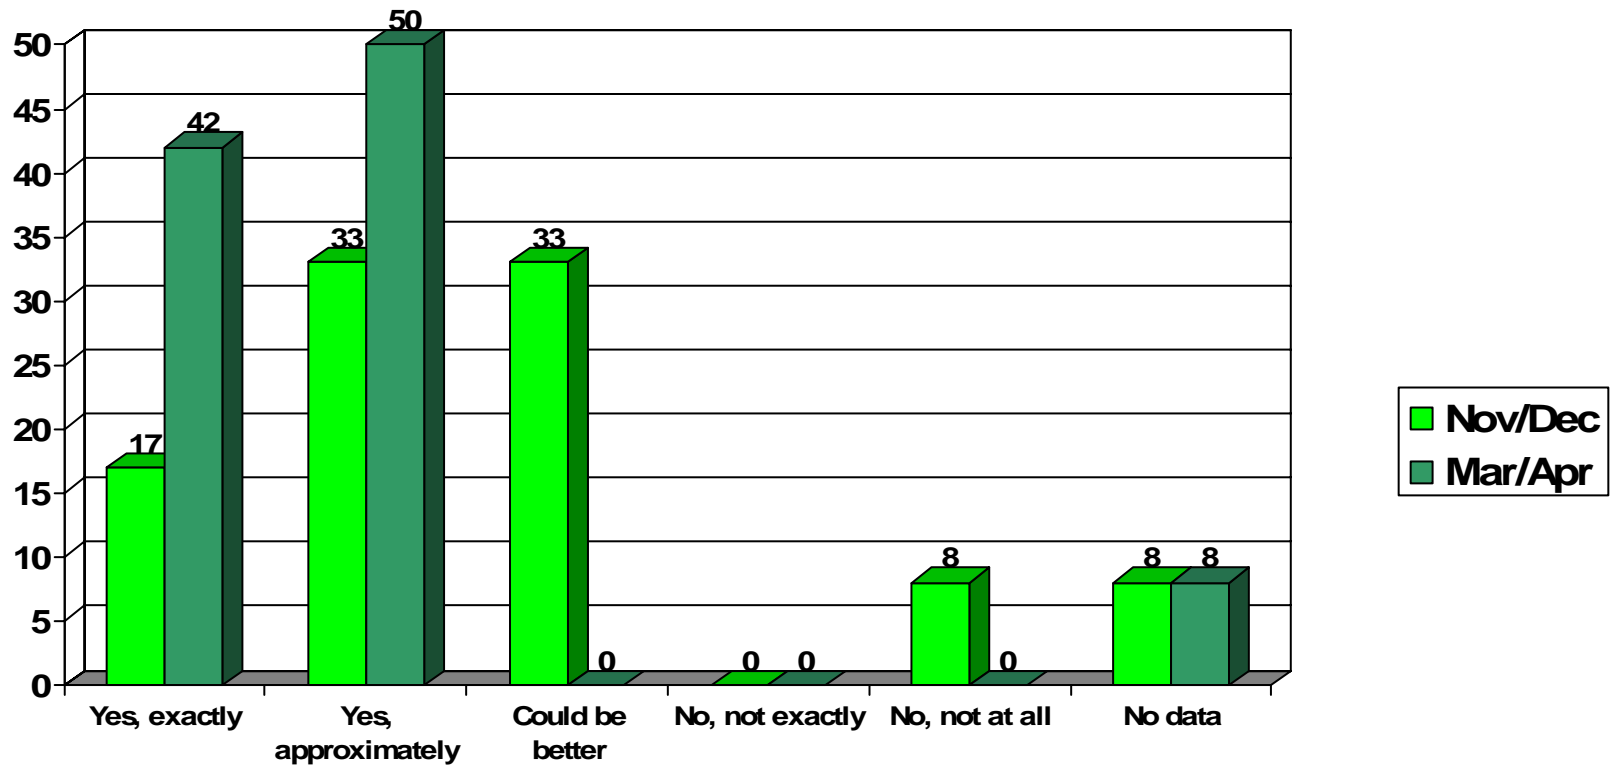

8.1 If yes, please describe in short.

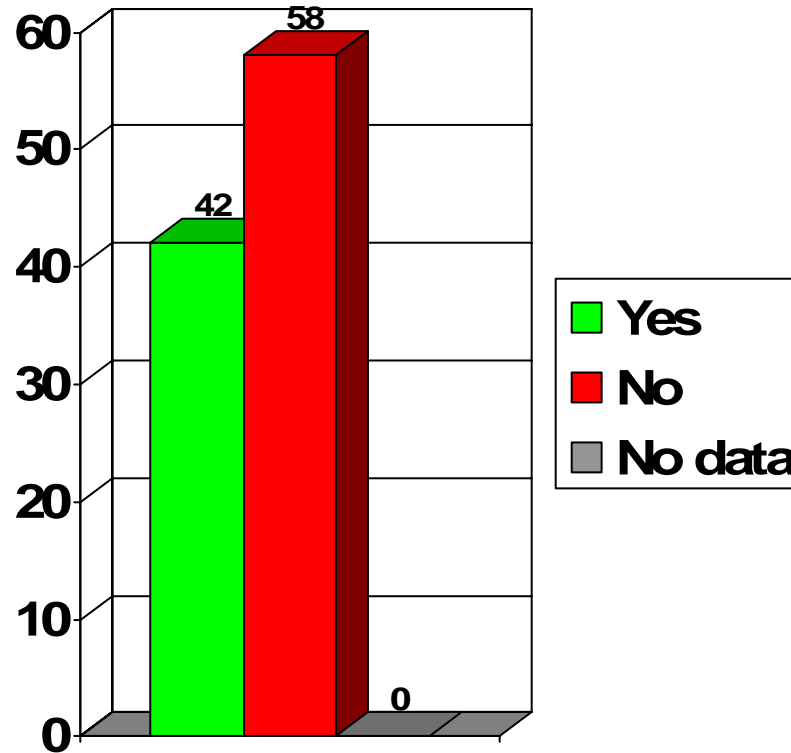

9. After the last meeting do you know what your partners are doing in their e-learning projects?

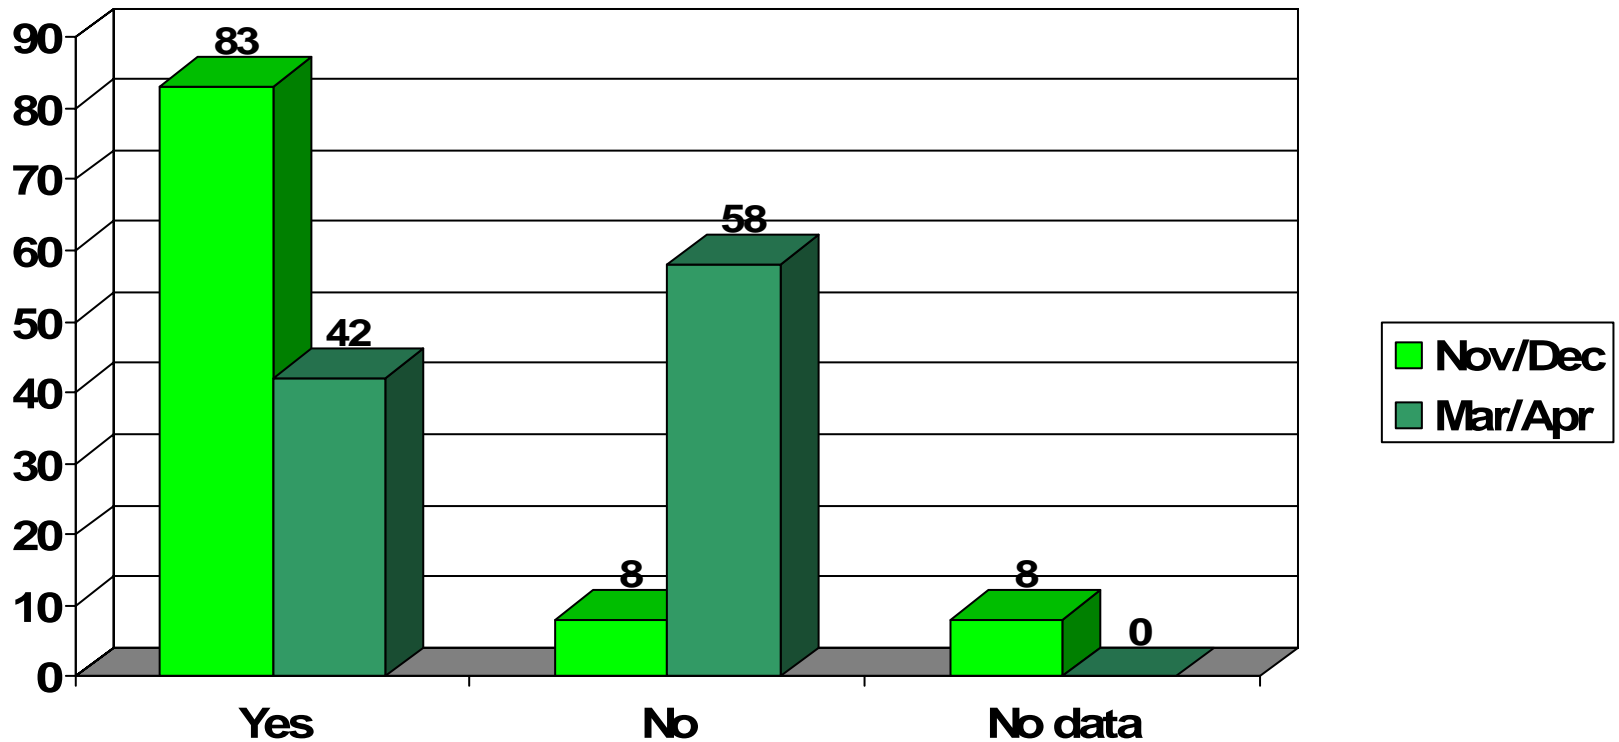

9. After the last meeting do you know what your partners are doing in their e-learning projects?

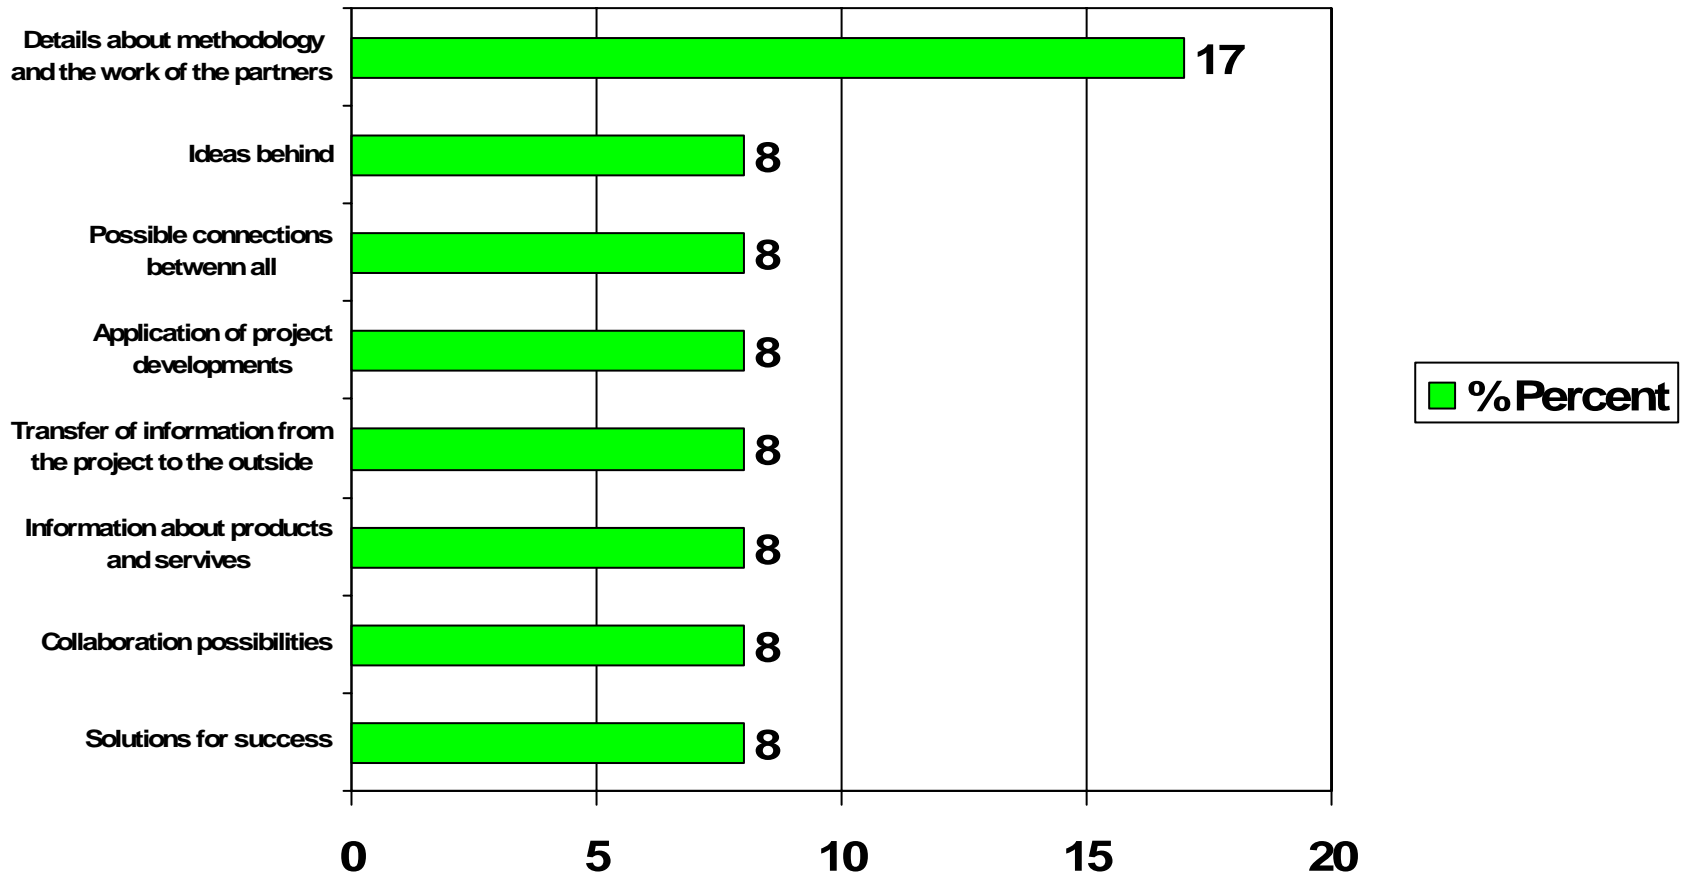

10. Do you want to have any more information?

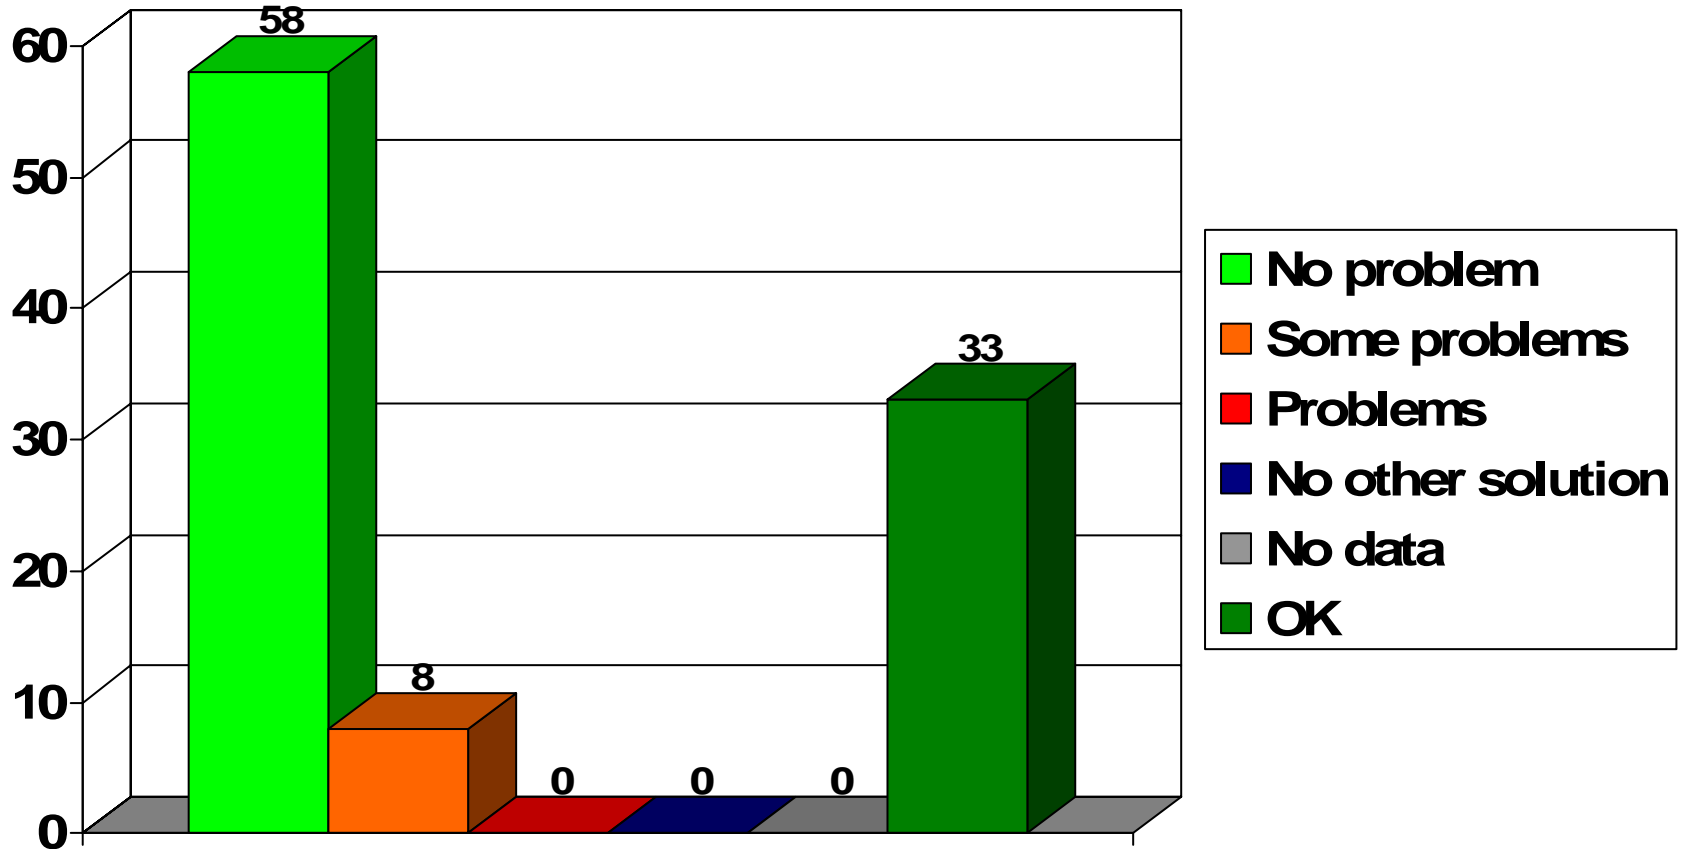

10. Do you want to have any more information?

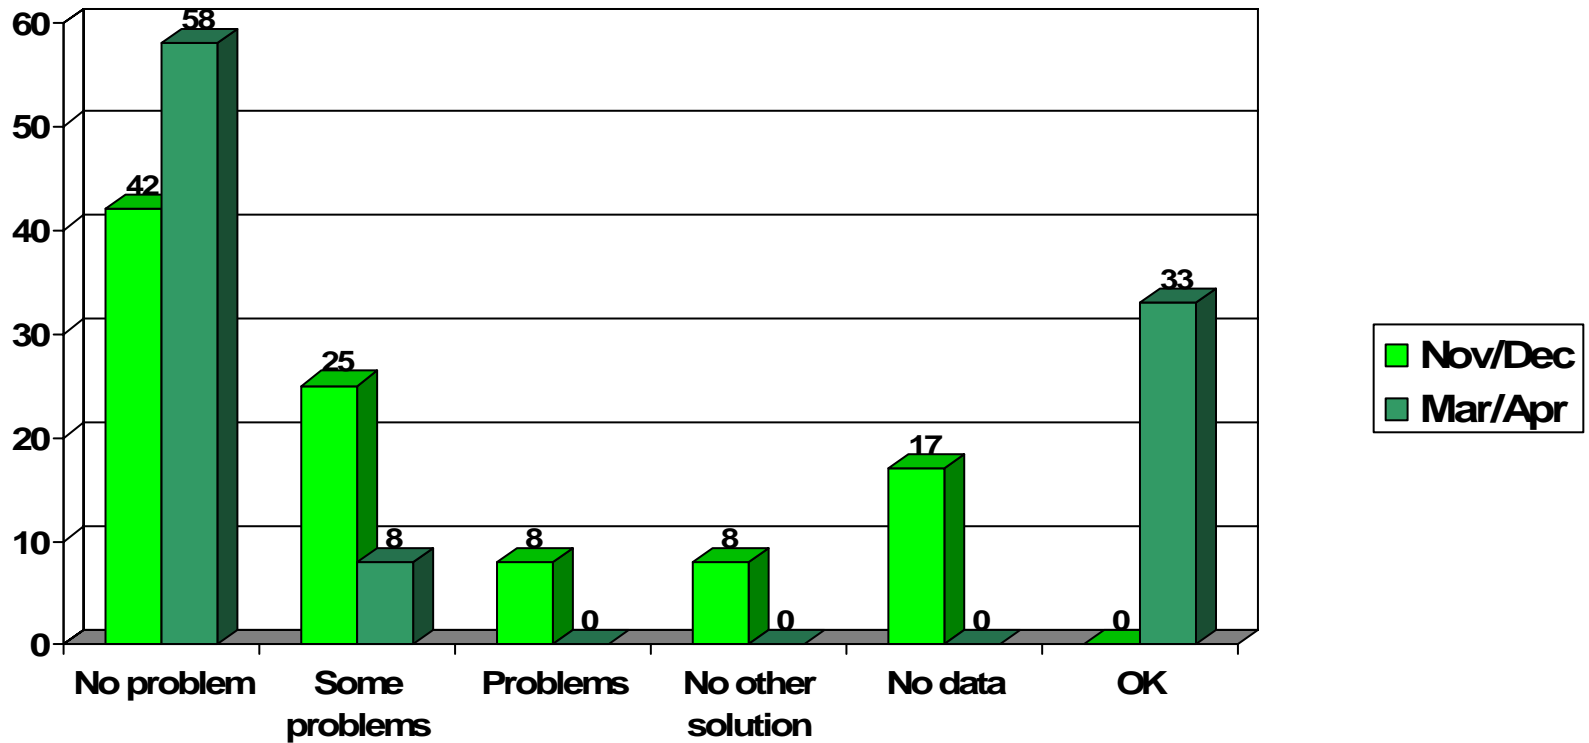

10.1 What kind of information would you like?

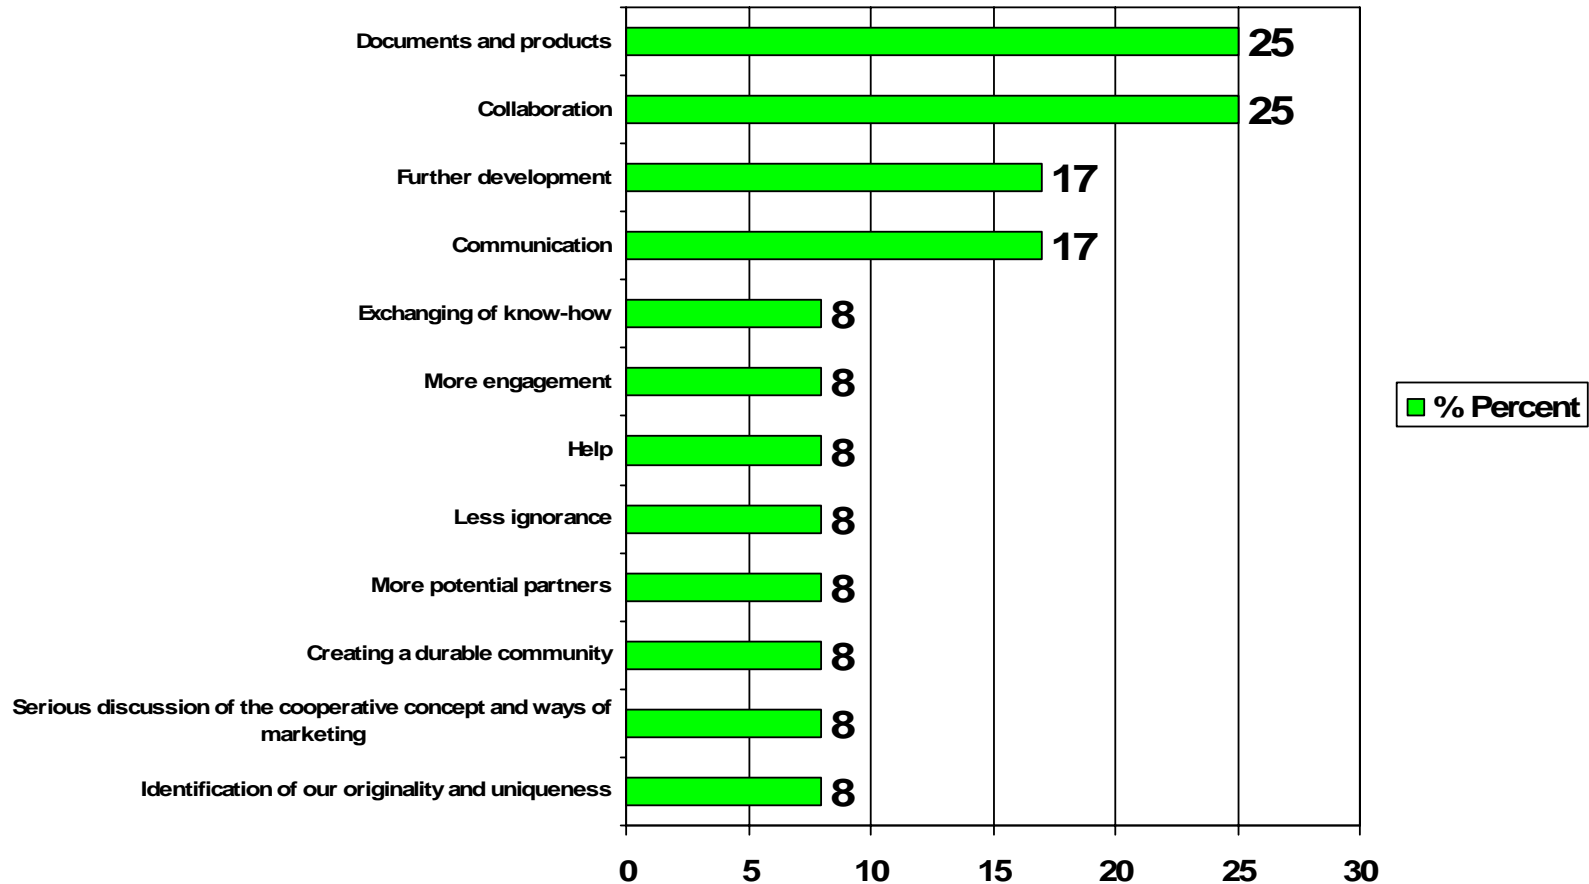

11. The working language is English...how do you get along?

11. The working language is English...how do you get along?

12. What do you expect or wish for the further work of the eL3-network?

13. What else would you like to tell us?

- “Your evaluation is great and very helpful. “
- “I think this is an ambitious project which has achieved a lot so far; I think we have learned about new ways of working together; new ways of thinking about blended learning; I would like the next transnational meeting to have some time for small groups to work together on actual tasks. For example the feasibility and viability of the coop through an option appraisal of different operational models; a critical examination of the evaluation tools produced and used; the scope of further developments.”

IV. Summary

- Positive:

„Meeting, sharing, learning“

- Negative:

„Theory discussions, Lost of time, poor output, blinc website“

- Improvable:

„Implication of all partners, the website, Interlacing of theory and practice

- **Suggestions for improvement:**

„More engagement and contribution, fulfilment of tasks, improvement of blind

- **Expectations and wishes:**

„Implification of all partners, Collaboration, documents and products“

„I would like the next transnational meeting to have some time for small groups to work together on actual tasks.“

V. Further plan

- Continuation of the processevaluation in June
- Presentation of the results during the next transnational meeting
- Release of the „real“ website in May/June
- Work groups in blogs an on the LMS
- Interim questionnaire before summer holidays
